If we are to be successful in retaining democratic institutions and expanding their meaning, we must be clear about the meaning of democratic ideas, we must make those ideas persuasive and we must above everything make them an integral part of our daily lives.

If democracy is to mean any thing, it must have respect for the common man and not use him cynically as a pawn in the political game. The manipulative approach sees, the common people only as so much material to be used. It has no more respect for the material than it would have for countries in any game. If you view idea, instrumentally your regards is for the creative action that they will evoke for the social cohesion and transformation. If you view ideas manipulatively your regard is for the use you can make of them. They become instruments not for creativeness but for contrivance.

1. What should we do to be successful in retaining democratic institution?
2. If you view ideas instrumentally what is the result?
3. If you view ideas manipulatively what is the effect?
4. Give a suitable title to the passage.

Rabindranath Tagore has left behind a rich heritages of so many lovely poems,songs,plays,novels,stories and essays. In his works the noblest aspect of Indian thought and culture are mirrored. He showed in his writings as in his life, that one should neither imitate ones own past which is dead nor ape the ways of others. His works have their roots in the ancient wisdom of the country but spread out like the green branches of a tree to catch the sunshine of today. His songs amply prove this. Their words are modern, their tunes are new.
