

## ENVIRONMENTAL CONSERVATION PROGRAMME

DATE- 16<sup>TH</sup> AUGUST,2019

### INTRODUCTION-

In sync with its primary responsibility of developing the necessary sensitivities amongst the masses regard environmental protection and conservation, the Environment Cell of the New Law College, BVP organized a one day discussion with the students of Shree Chhatrapati Shivaji Vidyalyaya and Junior college, Paud, Pune.

As such the audience happened to be comprised of individuals in their teen ages, the discussion essentially focused upon Pollution and its likely impact on the surrounding environment.

The meeting started off at the designated time with all the faculty members of the school there to welcome us. The delegation on our side was lead by Dr. Jyoti Dharm, who with her plethora of knowledge on the said subject enthralled everybody. The topic on Environmental pollution was well dealt by her in her address wherein she touch upon all the crucial areas of preservation, conservation and mitigation.

With the sole purpose being that of establishing a dialogue, madam also gave much attention to the questions so asked by the students. Especially those relating as to how they could contribute towards environmental conservation.

Mrs. Jayashree Khandare in her address to the august gathering touched upon how important it is to develop synergies between economic development and environmental conservation. She too stressed upon the need to adopt sustainable forms of living so that the serenity of the environment is well preserved for the upcoming generations. The students on their part showed their eagerness to know how the solar energy is harnessed and put to various uses.

Student volunteers Mr.Anmol Goyal and Mr. Yash Harshvardhan were instrumental in managing the said event and conducted an oath ceremony for all those present. The said oath touched upon the need to commit oneself towards environmental protection and conservation.

### **The said oath read as follows-**

*I do swear in the name of god, that I shall dedicate myself completely towards the cause of environmental conservation,*

*That I shall always cherish the gifts which Mother Nature has endowed us with,  
That I shall never cause pollution or degrade the environment,  
That I shall acquaint myself with the vagaries of climate change and,  
Would also strive to sensitise the people around me.*
