The real strength of judiciary lies in its lawyers. Without good lawyers it is almost impossible to discharge the functions of an able and independent judiciary. It is gratifying that the bar of this State provides in abundant measure, the high qualities of head and heart which are necessary for carrying on the profession of law with ability in a fearless manner. The profession of law has been termed noble. The nobility of the profession consists in this fact that the lawyers have to act as watchman protecting the rights granted by the Constitution and link life and liberty of people and to see that these rights are not violated.

Courts as an institution are too deeply fixed in our society to take a back seat. There is I think no sturdier element in the democratic system than an independent judiciary. It reflects the need on the part of the democratic system than an independent judiciary. It reflects the need on the part of the lowliest that justice is administered once the centre of things is reached. Justice is not for sale. Faith, that in spite of delays and costs, justice is impartial and justice can be had by the common man is an essential key-stone in such system that sustains us. The winds of passion can apply, mobs can march, riots can take place, but there is a long-run stability once the judiciary is viewed as the great rock that is unmoved by storms that break over it.

The democracy socialism achieves socio-economic revolution to end poverty, ignorance, disease and inequality of opportunity. The basis frame work of socialism provides a decent standard of life to the working people and specially, to provide security from the cradle of grave. It was held by supreme court that the preamble directs the centre of power, the legislature, executive and the judiciary to strive to shift up from a wholly feudal- exploited slave society to a vibrant, throbbing, social welfare society which is a long march; but during the journey to the fulfillment of goal, every state action whenever taken, must be directed and must be so interpreted as to take the society towards the goal.
