Q.4 Read the passage and answer the questions given below:

[10]

Mountaineering is now looked upon as the king of sports. But men have lived amongst the mountains such as the Andes and the Himalayas. The difficult mountain journeys have inevitably been part of their every day life. In the risky sport of mountaineering the element of competition between either individuals or teams is totally absent. Rather one can say that the competition is between the team and the peak themselves. The individuals making up a party must climb together as a team, for they depend upon one another for their safety. Mountaineering can be dangerous unless unreasonable precautions are taken. However, the majority of fatal accidents happen to parties which are inexperienced, or not properly equipped. Since many accidents are caused by bad weather, the safe climber is the man who knows when it is time to turn back, however tempting it may be to press on and try to reach the summit.

Questions:

1. How is mountaineering different from other sports?
2. Write words from the passage which mean the following:
 - i) dangerous
 - ii) action taken beforehand to ensure good result
3. Write a list of any four team sports.
4. Use the following words in sentences of your own:
 - i) competition
 - ii) journey
5. What is 'mountaineering'? Why do people indulge in this sport?
